

26 August 2024

Hello Arman,  
Thank you for reaching out to me on Handshake!

I have recently graduated with a Master's in Computer Science from UCSD, and I am very interested in the opportunity at TravelWits. I've always been eager to contribute to a startup because it presents a chance to broaden my skills and engage deeply across multiple areas :)

I believe my background aligns well with the qualifications listed in the job posting. I would appreciate it if you could share any tips on how I might strengthen my application or enhance my prospects of securing an interview.

I look forward to your insights.

Thank you, and have a nice day,

Best,  
Jay
