Dear Hiring Manager, University Recruiter, Adobe,

I am writing to apply for the Data Science Intern position at Adobe. I am excited about the opportunity to join your team and contribute my skills and knowledge to your organization.

I am currently pursuing a Master's degree in Computer Science at the University of California – San Diego, where I have gained a strong foundation in computer science concepts and technologies. I have completed relevant courses in recommender systems, computer vision, and Artificial intelligence, and I have consistently maintained a GPA of 3.9/4.

I am proficient in Python, Java, and C++ and have experience with the software development lifecycle, including designing, developing, deploying, and maintaining web and mobile apps. In my previous internships, I have developed strong analytical and problem-solving skills and have demonstrated my ability to work both independently and collaboratively within a fast-paced development team. I have excellent verbal and written communication skills and am able to articulate complex ideas and influence others through well-reasoned explanations effectively.

I am confident that my technical skills and my passion for software development make me a strong fit for this internship. I am eager to contribute to Adobe's success and learn and grow as a Data Scientist. Thank you for considering my application. I look forward to the opportunity to discuss this position further.

Sincerely,
Jay Jhaveri
